Recommendation: (Include any suggested outcome, direction or rule/clause change wording you are hoping to accomplish)

Conference conclusion or direction: (Conference Admin Comments)

Please submit proposed agenda items to clark.redden@rmwb.ca

Conference Submission Notes:

1. If you have any questions regarding a proposed submission email clark.redden@rmwb.ca
2. Your participation in submitting submissions is what makes our conference valuable to you and others.
3. Submissions can be related to any question, concern or information item you wish to advise industry of within the electrical discipline or related industries including Codes, Standards, Utility, Acts and regulations, Manufacturing issues, Trades and apprenticeship, Licensing Certification of equipment, as well as related documents such as Building or Fire codes that might impact you as an individual, Inspector, agency, municipality etc.
4. Our goal of your submission is to acquire a consistent interpretation within the electrical discipline.
5. We encourage submissions from any individual or entity interested in electrical safety and consistent application of the rules within our industry. This includes entities from outside our provincial boundaries.
6. We encourage you that if you have run into an installation that you feel that may be of interest to others within the province to submit a submission. Regardless if you have resolved compliance issues regarding the installation, what you have seen likely is of interest to others across the province as well as inter provincial members particularly if it is a one of, or new technology that may be of use to others.
